

LÖSUNG ZU 938:

a) $A = (5|60^\circ) = (2,5|4,33)$

$$x = r \cdot \cos(\phi) \rightarrow x = 5 \cdot \sin(60^\circ) = 2,5$$

$$y = r \cdot \sin(\phi) \rightarrow y = 5 \cdot \cos(60^\circ) \approx 4,33$$
