

**Track 1 – Unit 1/6, 7**

---

**Announcer:** Steven's day

**Steven:** During the week, I often get up at half past six.

Then I have a shower and eat breakfast. I like cornflakes or toast and a glass of orange juice for breakfast. I don't really like the traditional English breakfast. After breakfast, I ride my bike to school. I love my new bike. I got it for my 15<sup>th</sup> birthday. School starts at eight o'clock and we have a break at half past ten. At twelve o'clock it's lunch time. I always eat lunch at school. School starts again at one p.m. After school, I go home and do my homework. School ends at half past three and I normally have to do homework for one hour.

At half past four, I finally have free time. I often hang out at the skate park with my friends. I'm not very good at skateboarding, but I love to watch my friends do crazy tricks and stunts. Sometimes I film them with my mobile phone and put the video on the internet. The last video I posted got over 20,000 clicks! I have dinner at half past six and at seven I watch TV. I go to bed at half past nine and then I read a little bit. I normally go to sleep at ten o'clock.
