The individual and society

1 Individual long turn: The individual in society

- Compare and contrast the two pictures.
- Analyse how individuals position themselves in society.
- Describe your future role in society.

2 Paired activity: Voluntary work

Your local retirement home has sent out leaflets to ask people to come and do voluntary work for them as public funding is decreasing. You and your best friend are not sure whether to join this scheme or not.

Discuss the following aspects:

- time
- benefits
- effect on yourself and others
- expectations
- disadvantages

Decide which of these aspects matter to you the most. Agree on three.
