

Unit 5 Tools

Task 05. Fill in the missing words from the box.

screws – work piece – manual power tool – cutting – workshop – tool – machine –
machine tool – hand tool

Announcer: Listen and find out which tools these apprentices are talking about.

Tom: This type of _____ can be used for many different purposes. You'll find it in almost every metal processing _____. I use this _____ for various operations such as _____, sanding or drilling in order to create a symmetric work piece. It holds the material and rotates it about a horizontal axis against a _____ that shapes it. It removes material from the piece.

Lilly: I use this _____ to grip a _____ to free both hands to work on it.

David: This _____ develops a very high torque to turn _____, nuts and bolts.
