

Unit 16 Yes, we have that ...

Task 01

- Mark: Can I help you, madam?
- Mrs S.: Yes, please. I want to make a cold vegetable soup – a gazpacho you know - but I am afraid I don't really know what vegetables to use. Which vegetables are in season right now?
- Mark: Well, for a gazpacho you will need spring onions and garlic. The spring onions are €1.30 per bunch. A clove of garlic is €1. The main ingredient is tomatoes and these here are in season. We have them in prepacked 500 gram bags for €1.20. You may also buy them loose, but then they cost €3.10 per kg...
- Mrs S: OK, I'll take one bag of tomatoes, 2 bunches of spring onions and a clove of garlic. What else do I need?
- Mark: You will also need cucumbers and red peppers. We have two for one of these cucumbers. One costs 99 cents. The red peppers over there are very tasty and are €1.10 a piece.
- Mrs S: That sounds good. In that case I'll take four cucumbers and 2 red peppers. Oh, and I also need some herbs....
- Mark: May I suggest basil. . . A bunch is only 70 cents.
- Mrs S: Very well then. Oh, and how about the fruit salad? I know, I'll take a bunch of those bananas.
- Mark: Certainly, they are €2.10 per kg. This bunch is exactly 350 grams. What about oranges? A one kilo bag is €3.35.
- Mrs S: Yes, we all need vitamin C in this cold weather! I'll also take those kiwis, some grapes, one papaya and one starfruit for decoration. Oh, and give me half of that honey melon, please.
- Mark: Certainly, madam. Is that all?
- Mrs S: Yes, I think so.
- Mark: You're welcome, goodbye.
- Mrs S: Thank you and goodbye.
