Match the people and what they remember.

Jane
16
pupil

Jim
40
mechanic

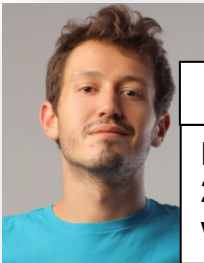

Sally
35
teacher

John
23
IT specialist

Debbie
30
hairdresser

Luke
27
waiter

1 I remember my first day at school. I was very nervous. All the pupils looked at me when I came into the classroom. They were very quiet. I said "Sit down, please."

2 I remember my first computer. I was six years old when I got it. First, I loved playing games. Later, I wanted to know what there is inside. Now it is my job to repair computers.

3 I remember my first day at work. I was very excited. I came to the garage very early in the morning. My boss was very friendly. He showed me everything. He asked me to help him. The first day we repaired a sports car.

4 I remember my first day at work. I was very excited. I always wanted to work with people. My first customer was Mrs Healey. I had to wash her hair. Of course, I didn't cut it the first day.

5 I remember my first day at school. I was very nervous. I went to school with my mum and my older brother. My brother's teacher told me where I had to go.

6 I remember my first job in a big restaurant. I was very nervous. There were so many people. It was very difficult to serve the right food and drinks to the right people.
