

Unit 13 – Planning a trip abroad

Task 03 – At the airport

When going on holiday by plane, go to the airport and search for the departure hall.

Check-in with your passport and ticket. Use the self-check-in facilities if you travel with hand luggage only.

Drop your luggage at the check-in counter and receive your boarding pass.

The boarding pass shows your departure gate, boarding time, flight and seat number.

If you travel to a country, outside the Schengen area, you have to show your passport at passport control.

At the airport security they will scan you for prohibited items.

While waiting for your flight, you can buy duty-free goods.

When the plane is ready for boarding, you may enter the plane, look for your seat and enjoy the flight.

Then you collect your luggage at the baggage claim, go through immigration control and customs and have a nice time.
