

## Unit 4 – This is the company I work for

### Task 06

Announcer: Listen to Michael's story.

Michael: Hi, my name is Michael, I started my apprenticeship with Brick and Co. Ltd. three months ago. I always wanted to work in the construction business. Even as a child, I planned houses and designed all kinds of wooden constructions. I am extremely happy that my hobby is going to become my profession. Brick and Co. is a global player. Its headquarters are in Vienna. It has many thousand employees all over Europe and the Middle East. I like the company logo and every time I see it on building sites, I am proud of being a part of this company

At the moment, we are constructing an office building ... quite modern, with a lot of wooden parts and an impressive front made of glass. My company is also designing bridges and planning road projects. There are some nice colleagues and other apprentices in my working unit and we sometimes have a lot of fun at work. My boss is often quite strict, but I think that is normal in the construction business.

My biggest dream is to be involved in the construction of a skyscraper in Dubai one day. I would love to work in a foreign country, where I could earn good money as well. Therefore, I will have to improve my English skills. Let's see if my dream comes true.
