

Track 17 – Unit 6/3, 4

Announcer: Listen to the job interview and tick the questions Ms Crowley asks.

Ms Crowley: Good morning, Mr Parker. Nice to meet you.
My name is Jennifer Crowley. Welcome to System Electronics.
Please take a seat.

Colin: Thank you.

Ms Crowley: So, Mr Parker, tell me about yourself.

Colin: My name is Colin Parker and I'm from Eastbourne.
I'm doing my last school year at the moment and I want to start an apprenticeship as an electronic engineer next summer.

Ms Crowley: Do you have any work experience?

Colin: Yes, last month I did a taster course at MLK Machines.
I really enjoyed the work.

Ms Crowley: What do you know about our company?

Colin: Well, I know System Electronics is a dynamic company that services and repairs a wide range of electronic products.

Ms Crowley: Why do you want to work for us?

Colin: I think I have the skills you're looking for. I'm reliable, I am a hard worker and I have got technical understanding.
I'm sure working at your company would be very exciting.

Ms Crowley: Sounds good. Where do you want to be in ten years from now?

Colin: In ten years I want to be still in a job that I find challenging and interesting.

Ms Crowley: And when could you start?

Colin: I could start in August.

Ms Crowley: Do you have any questions?

Colin: Oh yes, how many people work for your company?

Ms Crowley: Let me think a moment. We have about 80 employees.

Colin: I see. I haven't got any further questions.

Ms Crowley: Thank you for the interview.
We'll contact you next week. Goodbye.

Colin: Thank you! Goodbye.
