

## Unit 3 – Something new for a change

### Task 02

Announcer: What do these three friends enjoy doing? Who encouraged them?

Peter: I'm Peter. As a little kid, my parents made me play the drums. I was quite happy about it because I never really liked classical music. I think our neighbours would have liked it if I had played a different instrument, though. My drums were loud! My favourite music is pop and rock. Last summer my cousin Christoph taught me how to beat box and now we practice that together. That's fun!

Renaud: Hi, I'm Renaud. I'm the centre forward on my local football team, but I also love playing guitar. My dad and uncle do too, and they taught me everything I know! It's great having two amazing teachers in my family to encourage me. Last summer I tried something new: I started taking kickboxing lessons. I really love it!

Sofie: Oh, hi, I'm Sofie. I guess I should tell you about how I learned that I really like to sing. In middle school I sang in the church choir, but I didn't like the way it sounded. The music was too old-fashioned. One night in my first year at vocational school I went to a karaoke place with some friends. We sang our favourite pop songs ... all night. My friends told me that I have a great voice and encouraged me to sing. Now I sing in a band!
