

Unit 14 – Different types of walls

Task 02 Match the walls and the definitions.

| | | |
|--------------------------|---------------------|--|
| thermally insulated wall | wärmegeämmte Wand | insulates against cold or heat |
| dividing wall | Zwischenwand | separates an apartment into rooms |
| sound insulated wall | schallgeämmte Wand | insulates against noise |
| supporting wall | tragende Wand | has to bear vertical and horizontal loads |
| fire wall | Brandschutzwand | is designed to stop fire moving through the building |
| exterior wall | Außenwand | is a wall on the outside of a building |
| non-supporting wall | nicht-tragende Wand | only has to support its own weight |
